

# DIVINE LIGHT OCEAN TEMPLE

## CRYSTAL GUARDIAN WORKSHOP

At Last, The Divine Crystal Guardians that have long waited inside the Earth and its Crystal Kingdoms are ready to meet you! You will find a particular Crystal Guardian resonating with your 2nd & 5th dimensional selves, (Elohim & Elemental natures) for they are the original Human Angels that have been here since the beginning of creation.

Some call them Angel/Devas, some call them the Children of the Light of the Emerald covenant, some call them the original Earth Guardians that pre date a time we know as Lemuria called Utopia, but never the less, its time now for them to return to the surface of Earth as our planet has entered into the new energies that they have been awaiting. The 5th Dimension.

Allow them to gladly introduce you to their worlds, which reside in the sacred crystal cities in the Inner Earth, Central and the Middle Earth and show you all the magical pathways to & from these cities that link up with the Crystal grids, portals & countries, through a workshop.

You will receive an extensive manual with maps & diagrams of these tunnels, cities, sacred symbol codes, your 33 human angel chakra system and properties of the first chosen 33 crystals that the Guardians represent. Not only will we cover much knowledge on the day & interpreted with your visions, but you will learn how to give sessions with these cards and discover the variety of ways & methods offered as each card contains the 5 Kingdoms. Plant & Vegetable, Mineral, Animal, Human, Place & Star systems.

You will come away with your new wings activated, a heart full of Love & fully restored and many new inspirational ideas & ways to embrace your gifts. You will receive a certificate if needed which will enable you to work as a true Earth Guardian of the Crystal Kingdoms at many expos & events or even from your own beautiful home, once you've discovered which role & keepership you contain.
