

DIVINE LIGHT OCEAN TEMPLE

CRYSTAL LIGHT Level 1-3 WORKSHOP

The workshop will cover many practical methods on how to use crystals for healings, wellbeing, meditations as well as for general everyday wear.

We will go over the many types, shapes, properties of many crystals as well as find out the stories hidden within them, so you can see why they have come to you.

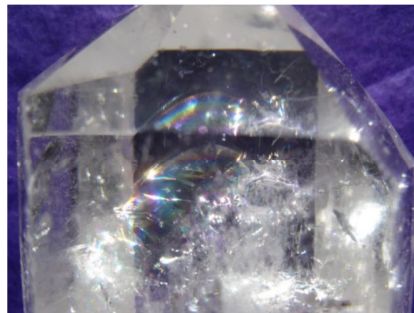

We connect them to the Mother's Heart so as they bring an on flowing source light for you as well as the required codes and energy transmissions.

Find out the best crystals for your Divine nature, Health, Prosperity, Chakra energy and the applications of them.

We will discover your crystalline frequency and make an elixir to take home!
